

## Interface Module Sensor to PLC

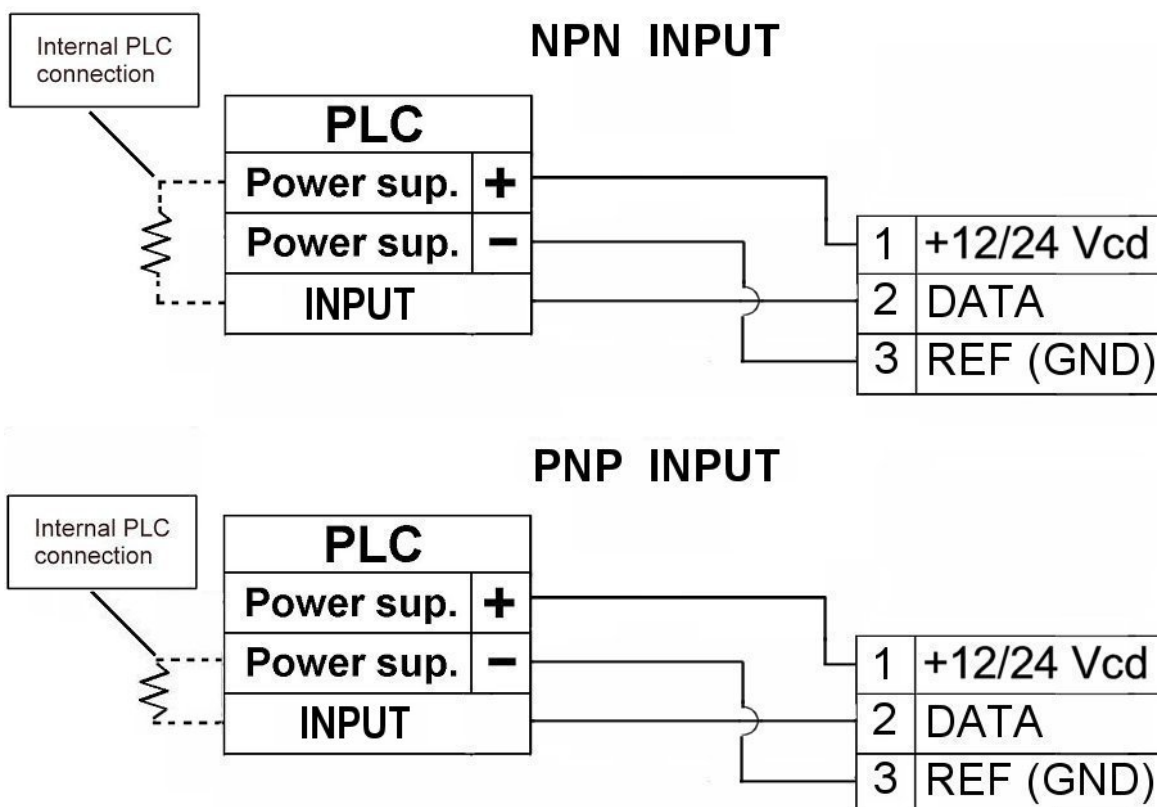

### Electrical Connection between Sensor to Module to PLC

- Connection Sensor ( F 3.00.H.XX or F 3.00.F.XX ) to Module

- **Connection Module to PLC**

### Technical Data:

Supply voltage : 12 to 24 Vdc regulated  
 Supply current :  $I_{Alim} = 11 \text{ mA} @ I_{Out} = 0$   
 Output signal : square wave  
 Output type : Push – Pull  
 Output current :  $I_{Out} \text{ Max} < 20 \text{ mA}$   
 Mounting information : on DIN rail

### Standard & Approvals:

Manufactured under ISO 9002  
 CE

**GESINT S.R.L.**
